

Flex Singles Guidelines

1. Call or email your opponent if you are hosting the match. Hosting means you supply the tennis balls and choose the site for the match. It is preferable to choose a site with drinking fountains and restrooms. However, this is not a requirement.
2. You will need to login to TennisLink to obtain your opponent's phone numbers and emails. Make sure to sign up as Captain to access this information. Remember your USTA number and password, you need them to login.
3. If emails are not returned within 24 hours, please call your opponent. If you still can't contact them, contact us at 208-340-9140 or lgriffel@idtennis.com.
4. Matches are two of three sets with the third set being a tiebreaker. If both players agree to play three sets, you may. Third sets are still recorded 1-0 on TennisLink even if you play all three sets.
5. In the event of an emergency and you must cancel, call your opponent; please do not assume an email will be read. If you cancel the day of the match and can't reach your opponent, contact our office and let him know your situation. No shows are considered defaults.
6. The season will NOT extend beyond one week past the end of the league. Please be diligent about playing your matches. You may play your opponents out of the order they appear on TennisLink.
7. You may not use a sub for a singles match. Please reschedule if you cannot play on a day previously scheduled.
8. Please record your scores the same day you played the match. Either person may enter the scores.
